

Please read the full agreement below, but in a nutshell it says that anybody in your household can use it and you can install it on as many machines as you need. We're not limiting how many copies you can have for your convenience. If you have 7 kids and 10 computers, one household license allows you to put **Egorg Essay** on all 10 computers (including parents' laptops, so they may check work while traveling, for instance) and let all the kids use it. *All for the price of one license.*
